Citation: Kihara TC, Huys R (2009) Corrigenda: Kihara TC & Huys R (2009) A new genus of Ectinosomatidae (Copepoda, Harpacticoida) from sublittoral sediments in Ubatuba, São Paulo State (Brazil), an updated key to genera and notes on *Noodtiella* Wells, 1965. In: Bruce N (Ed) Advances in the taxonomy and biogeography of Crustacea in the Southern Hemisphere. ZooKeys 17: 57–88. ZooKeys 18: 181–182. doi: 10.3897/zookeys.18.249

In a recent review of unresolved nomenclatural issues in the Harpacticoida, Huys (2009: 33 – published 06 August 2009) proposed a new generic name *Glabrotelson* for the orphaned grouping equivalent to McLachlan & Moore's (1978) concept of *Hastigerella* Nicholls, 1935. The provisions of ICZN Arts 13.1.2, 13.3 and 16.1 were met by providing a bibliographic reference to a diagnosis (Huys et al. 1996: 188), fixing a type species (*Hastigerella mehuinensis* Mielke, 1986) and explicitly indicating the generic name *Glabrotelson* as intentionally new, respectively. Kihara and Huys (2009: 80 – published 05 August 2009) reiterated Huys' (2009) justification for this course of action and stated that *Glabrotelson* was a "new name" intended by Huys, which constitutes an "explicit indication of novelty" (ICZN Art. 16.1). They also mentioned the type species (ICZN Art. 13.3) and cited the new name in the generic key which in itself is sufficient to satisfy the requirements of ICZN Art. 13.1.2. Hence, being available from Kihara and Huys (2009), *Glabrotelson* Huys *in* Kihara & Huys (2009) takes priority over *Glabrotelson* Huys, 2009 syn. et hom. n.

Unlike stated in Kihara and Huys (2009: 62, line 9) the gender of *Chaulionyx* is masculine, not feminine.

A number of previously established binomina cited in Kihara and Huys (2009) fail to show agreement in gender between the species-group name and generic name and consequently require amendment:

Page 74, line 5 from bottom: *K. spinosa* Hicks & Schriever, 1983; read: *K. spinosum* (Hicks & Schriever, 1983).
Page 74, lines 4–5 from bottom: *K. triarticulatus*; read: *K. triarticulatum*.
Page 75, line 4: *B. foliatus*; read: *B. foliata*.
Page 75, line 2 from bottom: *N. gracile*; read: *N. gracilis*.
Page 76, last line: *N. gracile*; read: *N. gracilis*.
Page 79, line 14: *gracile*; read: *gracilis*.
Page 80, line 7: *T. typicus*; read: *T. typica*.
Page 80, line 10: *T. medius*; read: *T. media*.
Page 80, line 20: *Ectinosoma tenuissima*; read: *Ectinosoma tenuissimum*.

Acknowledgement

We are very grateful to Dr Miguel A. Alonso-Zarazaga (Museo Nacional de Ciencias Naturales, Madrid) for drawing our attention to these errors.
